**COMMENTS FOR  
TEXAS PUBLIC UTILITY COMMISSION PROJECT #40000  
FEBRUARY 27, 2013**

My name is Richard Howe. I am a native Texan, and a long-time resident of Plano, Texas. I am writing as an individual concerned citizen and an electric utility rate payer.

I urge the Public Utility Commission (PUC) to act on the request by the Butler Firm to hold a workshop under a separate docket to address the advantages of encouraging solar development in the ERCOT market. (See project #40000 filing dated 2/27/2013, The Butler Firm, Comments and Request for Workshop)

Sincerely,

Richard (Larry) Howe
