Re: **Docket # 43510; Jade Energy, LLC**

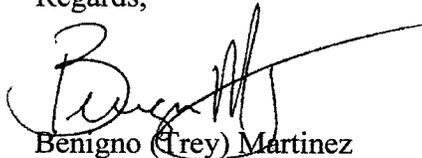

To Whom It May Concern:

My firm has been retained by Drs. Subhash and Sarojini Bose in regards to the above referenced matter. It has recently come to our attention that a company in which they own and have invested 100% of the capital has had a member submit the above referenced filing attempting to change ownership without either their knowledge or permission. We are respectfully asking that we be allowed to intervene in the above referenced docket number and request that the filing be withdrawn until the Bose family and the PUCT fully and finally understand why such a filing was submitted under the circumstances.

Along those same lines, we are requesting under the Texas Open Records Act or under any internal process that would be more expeditious and in the interest of justice any and all documentation that was submitted with such filing, including, but not limited to information that was filed as "confidential." It would seem that both my clients, as owners of the company, would have a right to view any information that was submitted with a filing for their company.

I appreciate your assistance with this matter and should you need any further information, please do not hesitate to contact me.

Regards,

Benigno (Trey) Martinez
